Edmar Barros

Staff Software Engineer & Solutions Architect

Brazil
me@edmarbarros.com
pt.linkedin.com/in/edmarbarros/

Senior Software Engineer with over 10 years of experience building scalable, data-heavy production systems. Proven track record in driving business impact through architectural refactoring (Monolith to Microservices), infrastructure cost optimization (-45%), and radical process automation (over 90% reduction in onboarding time).

"The mind that opens to a new idea never returns to it's original size." - Albert Einstein

Experience

Vocational

May 2024 - Present **Staff Software Engineer & Solutions Architect**, *Vendoo*, Remote.
Multichannel Listing Tool and Inventory Management Software for Online Sellers.
Achievements:
- **Architecture Evolution:** Leading the migration from a legacy monolith to an Event-Driven microservices architecture using Kafka, scaling the system to handle over 90k daily listings while reducing system latency by 300ms.
- **Cost Optimization:** Designed and executed an Elasticsearch improvement plan that reduced monthly infrastructure costs by 45%, with a roadmap for an additional 20% reduction.
- **DevOps Efficiency:** Optimized CI/CD pipelines via GitHub Actions and CircleCI, reducing Docker image sizes from over 1GB to 300MB (75% reduction), significantly accelerating deployment speed.
- **Technical Leadership:** Established internal "Tech Talks" and a structured 1:1 mentorship framework, successfully closing the system knowledge gap and accelerating peer career progression.
- **System Reliability:** Monitor system health and performance, proactively identifying and resolving potential issues before they impact users.

Key Technologies: React, NodeJS, Typescript, Kafka, PostgreSQL, GCP, BigQuery, Elasticsearch, Terraform, Docker, Kubernetes, Helm, CircleCI, Github Actions

Jun. 2023 - Apr. 2024 **Senior Software Engineer & Tech Lead**, *Vendoo*, Remote.
Multichannel Listing Tool and Inventory Management Software for Online Sellers.
Achievements:
- **Squad Leadership:** Led the engineering team in planning, development, and delivery of new features, ensuring alignment with business objectives and product goals.
- **Agile Ownership:** Worked closely with the product team to define the scope of sprints, establish priorities, and develop clear acceptance criteria for tasks.
- **Release Management:** Managed complex release cycles and CI/CD pipelines via CircleCI, ensuring that all updates were tested and delivered on time while maintaining system stability.
- **Technical Support:** Provided hands-on support to the engineering team to troubleshoot issues and remove blockers, ensuring consistent progress throughout the sprint.
- **Collaboration:** Coordinated cross-team collaboration to streamline workflows, improve communication, and promote a culture of shared responsibility.

Jul. 2022 - May 2023 **Senior Software Engineer**, *Paerpay*, Remote.
Mobile payment integration platform for the restaurant industry.
Achievements:
- **Operational Impact:** Engineered a real-time transaction monitoring dashboard using BigQuery, providing partners instant visibility into payment statuses and drastically reducing support volume.
- **Business Growth:** Integrated diverse SOAP-based POS systems and REST payment gateways, enabling the onboarding of major national restaurant chains.
- **Data Reliability:** Scaled backend infrastructure using Firebase and GCP to ensure high-speed payment processing during peak hours.

Key Technologies: React, NodeJS, Typescript, Firebase, GCP, BigQuery, Docker

Sep. 2021 - Apr. 2022 **Senior Software Engineer & Architect**, *EMB Software Engineering*, Remote.
Software House focused on help companies to become digital effortlessly.

Achievements:
- **Strategic Consulting:** Lead digital transformations via an API-First approach, shortening the development lifecycle and improving integration efficiency.
- **Hands-on Leadership:** Manage the full software lifecycle from technical specification to cloud deployment (AWS/Terraform) for data-heavy applications.
- **Technical Support:** Provided hands-on support to the engineering team to troubleshoot issues and remove blockers, ensuring consistent progress throughout the sprint.
- **Collaboration:** Work with prodcut team to streamline workflows, define product development roadmap and ensure alignment with business goals.

Key Technologies: Python (Django), React, NodeJS, AWS, Docker, Sanity CMS, Shopify, Terraform, Redis

Jan. 2019 - Sep. 2021 **Senior Software Engineer**, *Citruslabs*, Remote.
Clinical trial recruitment platform connecting patients to research.

Achievements:
- **Process Transformation:** Spearheaded a database normalization initiative that slashed customer onboarding time from 2 weeks to 1 day (93% improvement).
- **Data-Driven Insights:** Implemented automated patient funnel tracking (1,000+ responses/trial), identifying a 10% drop-off rate to optimize recruitment costs.
- **Release Velocity:** Implemented CI/CD via GitHub Actions, increasing deployment frequency and reducing time-to-market by 70%.

Key Technologies: Python, Angular, NodeJS, MySQL, AWS, Docker, Github Actions

Education

2013– **MSc in Software Engineering**, *Coimbra University*, Coimbra.
Attended

2009–2014 **BSc in Computer Science**, *Coimbra University*, Coimbra.

Languages

Portuguese	**Native**	
English	**Professional proficiency**	*Used in daily work communication.*
Spanish & French	**Basic proficiency**	*Able to understand common phrases in professional settings.*

Technical skills

Programming	Python (Django, FastAPI), JavaScript/Typescript (NodeJS, React), Java, PHP, C
Cloud & Data	GCP, AWS, BigQuery, Kafka, Elasticsearch, Docker, Kubernetes, Terraform
Databases	PostgreSQL, MySQL, MongoDB, Redis, Firestore
CI/CD	Github Actions, CircleCI, Jenkins

Social Skills

Communication	Bridging the gap between complex backend architecture and business metrics.
Leadership	Led and mentored engineering teams, fostering high-scale engineering cultures.

Additional Activities and Interests

IoT problem solver and Arduino enthusiast; home brewing enthusiast.
